- Prioritize PII in tiers

## Personalized Triage Services

Our personalized service is designed to assist law firms with managing data breaches from start to finish. We are digital forensic experts and analysts specializing in corporate and mobile forensics technology and have extensive experience with planning and conducting forensic investigations using best-in-class technology and proprietary software.

With our partner Dauntless Discovery, we offer custom review workflows to enhance the efficacy of reviewing highly regulated personally identifiable information (PII) using advanced analytics and AI. Leverage proprietary applications to make faster PII decisions and their team will work closely with you to quickly gauge the regulatory exposure associated with the data breach.

*“Categorize sensitive personal data faster”*

Understand the data collected
